**PRESENTATION MATERIAL**

# DISCLAIMER

The information that follows is a presentation of general background information about PT Wijaya Karya Beton Tbk (the “Company” or “WIKa Beton”) prepared by the Company as of May 2014.

This presentation has been prepared for information purposes only. None of the information appearing in this presentation may be distributed to the press or other media or reproduced or redistributed in the whole or in part in any form at any time. Any recipient of this presentation and its directors, officers, employees, agents and affiliates must hold this presentation and any information provided in connection with this presentation in strict confidence and may not communicate, reproduce, distribute or disclose to any other person, or refer to them publicly, in whole or in part.

This presentation does not constitute an offer to sell or the solicitation of an offer to buy any securities in the United States or any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction, and neither this presentation nor anything contained herein shall form the basis of or be relied on in connection with any contract or commitment whatsoever. No securities may be offered or sold in the United States absent registration or an applicable exemption from registration requirements. Any public offering of securities to be made in the United States will be made by means of a prospectus. Such prospectus will contain detailed information about the company making the offer and its management and financial statements. No public offer of securities is to be made by the Company in the United States. This presentation may contain forward-looking statements and estimates with respect to the future operations and performance of the Company and its affiliates. Investors and security holders are cautioned that forward-looking statements are subject to various assumptions, risks and uncertainties, many of which are difficult to predict and are generally beyond the control of the Company. Such assumptions, risks and uncertainties could cause actual results and developments to differ materially from those expressed in or implied by the forward-looking statements.

Accordingly, no representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in this presentation, nor is it intended to be a complete statement or summary of the resources markets or developments referred to in this presentation. It should not be regarded by recipients as a substitute for the exercise of their own judgment.

Neither the Company or any other person assumes responsibility for the accuracy, reliability and completeness of the forward-looking statements contained in this presentation. The forward-looking statements are made only as of the date of this presentation. The Company is under no duty to update any of the forward-looking statements after this date to conform such statements to actual results or developments or to reflect the occurrence of anticipated results or otherwise.

By accepting delivery of this presentation, the recipient agrees to accept and be bound by the statements, restrictions and limitations set forth herein.

KEY INVESTMENT HIGHLIGHT

# INVESTMENT HIGHLIGHTS

# 1 The Largest Capacity and Leading Market Share to Promote Economies of Scale

- Based on MARS report, an independent surveyor, in January 2014, there are **28 precast concrete production facilities in Indonesia** owned by 20 companies with **total production capacity of 5.2 million ton per year**. Around 89.3% of the total capacity is dominated by 9 companies.
- **WIKA Beton has the biggest production capacity with 38.6% of total production capacity in Indonesia** or equivalent of 2 million ton per year.
- **WIKA Beton’s market share was estimated around 42.7% in 2013.**

Production Capacity of Indonesian  
Precast Concrete Industry

Source: MARS

Market Share of WIKA Beton Based on Sales (2013)

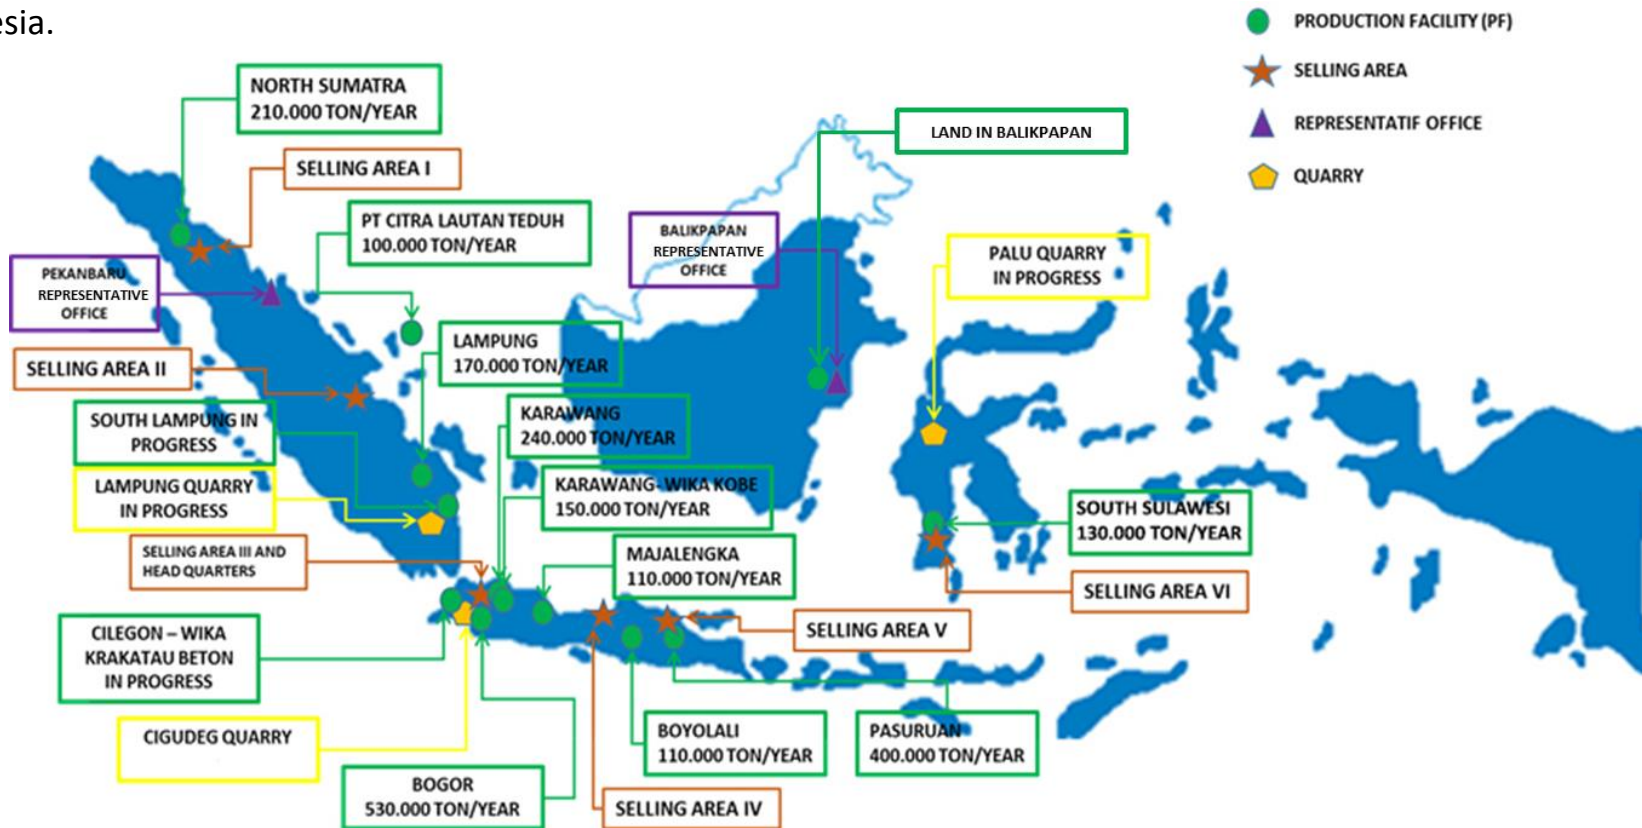

Source: BCI Asia

WIKA Beton is able to **promote economies of scale** compared to its competitors due to its size.

## 2 Wide Coverage and Well Integrated Production Facilities Across Indonesia

- **Wide Coverage:** WIKA Beton will have 11 production facilities (including subsidiaries) by the end of 2014, 6 sales areas and 2 representative offices strategically located all across Indonesia.
- **Well Integrated:** 1) Complete business cycle from engineering, raw material production, fabrication, and installation (Backward and Forward Integration); 2) Flexibility in moving supporting equipment such as moulding to all production facilities in Indonesia.

WIKA Beton is able to provide **fast delivery and cheaper transportation cost** due to close proximity to customers.

## Experienced Management Team with Extensive Track Record in Precast Concrete Industry

3

Experienced  
for more  
than 20  
years in  
precast  
concrete and  
related  
industry.

**Wilfred I. A.  
Singkali**  
*President Director*

31 years of experience  
in the precast industry

- President Director of the Company since 2012.
- Previously served as the Company's Director of Engineering and Production (2007 – 2012).
- Started his career with PT Wijaya Karya (Persero) Tbk as Staff of Research and Development Construction Components in 1983.

- Started his career with PT Wijaya Karya CAB VIII Surabaya (1978 – 1979).

# 4

## Pioneer in Indonesian Precast Concrete Products with Continuous Innovation

WIKA Beton is committed to **improve product quality and customer satisfaction through innovation**

# 5 Most Complete Sets of Product in Indonesia

Wika Beton has **the most complete sets of products** to capture the demand in precast concrete industry.

### 1. PRE-STRESSED CONCRETE POLES (PC POLES)

Electrical PC poles, transmission electrical PC poles, telecommunication PC poles, lighting PC poles and netting PC poles.

### 2. PRE-STRESSED CONCRETE PILES (PC PILES)

PC Piles Spun & Square (spinning method) and PC Piles Square & Triangle (vibration method).

### 3. BRIDGE CONCRETE

I-Girder, U girder, Box girder, Voided slab, Concrete diaphragm, Half slab and Double Tee

### 4. RAILWAY SLEEPERS

KA-Clips, DE-Clips, Pandrol, E-Clips, and Vossloch.

### 5. RETAINING WALL CONCRETE (SHEET PILES)

Corrugated concrete (CCSP) and Flat sheet piles (FCSP).

### 6. HYDRO STRUCTURE CONCRETE (PC PIPES)

Core Type prestressed concrete pipes (PC pipes) and Reinforced Concrete Pipes (RC Pipes).

### 7. MARINE STRUCTURE CONCRETE

Product to support dock and offshore projects such as jetty, bridge, and breakwater structures.

### 8. BUILDING AND HOUSING PRODUCT

Precast walls, columns, beams, stairs and other structural and architectural components.

### 9. OTHER PRECAST CONCRETE

Pipe racks for oil companies, water storage and water-cooling towers for power plants.

### 10. ENGINEERING SERVICES

Technical advice, recommendations, product installations, delivery and tensioning systems.
